

Trinity Christian School

Parents:

This year Trinity Christian School begins a new program to monitor and improve indoor air quality (IAQ) in our school. We are proud to be taking a leadership role in providing a safe, comfortable, and productive environment for our students and staff so that we achieve our core mission – educating students. Our school will utilize guidance provided by the U.S. Environmental Protection Agency to prevent IAQ problems and respond to any IAQ issues that may arise.

Enclosed is a copy of the IAQ Backgrounder, which is part of the EPA guidance that we are using in our school. Not only is this basic information useful to schools, you may also find it useful for application in your own home.

Brenda Combs has agreed to administer the IAQ program in our school. If you have any question or concerns, please do not hesitate to contact Mrs. Combs at 631-3194 ext.225, or by e-mail, Brenda.combs@trinitychristianschool.cc.

Sincerely,

Sharon Ragan
Principal
